

PLAN

SPOON DRAIN SECTION

NOTES:

1. Levels, boxing & bedding must be inspected & approved before pouring.
2. Concrete to be 25MPa, reinforced with SL82 mesh centrally located, non-slip finish (unsealed).
3. Concrete spoon to be at a grade which allows smooth flow of water along table drain.
4. Asphalt surfacing is not required when road is unsealed.
5. Construction and road reinstatement in conjunction with issued Asset Permit Policy conditions.
