

## 55 Bruce Street, Macedon 3440

### Philosophy

Macedon Kindergarten has been providing quality pre-school education to Macedon children and their families since 1976.

Macedon Kindergarten educators provide a play based learning curriculum that supports children's learning and development. We focus on identifying children's interests and developmental needs. Our practices are influenced by contemporary theories, in particular those of a socio-cultural and ecological perspective. Our practice is also guided by an understanding of developmental theory.

### Features

- Natural bush setting at the foot of Mt. Macedon
- Large outdoor play spaces including extensive dry riverbed/landscaped area to promote exploration
- Welcoming secluded nooks for imaginative play and quiet reflection
- Sustainable eco vegetable gardens with worm farm and compost bin
- Areas for running, climbing, a bike track, mud kitchen and sand play
- Ample natural and constructed shade
- Close to Macedon and Mt. Macedon Primary schools, local shops, post office, railway station and café.
