

Cuppa with a Contractor

Managing riparian weeds workshop

Energy,
Environment
and Climate Action

Unsure how to tackle woody weeds on your property?

Do you have blackberry, gorse, or willow growing in or alongside your waterway?

North Central Catchment Management Authority (CMA) invites you to come have a Cuppa with a Contractor, to ask all your weedy wonderings in a supportive and practical session.

Weed management is a collective responsibility. The session is the start of a series of events to ensure landholders across the Coliban and Campaspe catchments have the skills and knowledge to continue to manage weeds along their waterways.

When: Friday 17 October 2025, 9:30am to 11.30am

Where: Lauriston – Site address provided to registered participants

Speakers will include:

- Matt Jackson, Founder and Director of Platypus Environmental Services will talk about planning weed control and choosing the right techniques.
- Agriculture Victoria Biosecurity Team will address supporting land managers, shared responsibilities, and best practice control advice.

Free coffee van and breakfast rolls provided. Plenty of fact sheets and information will be available.

Registration essential via <https://www.eventbrite.com.au/cuppowithacontractor>
